

5 BENEFITS OF INTERNING ABROAD

Independence

Self-Confidence

Global Competency

Open-mindedness

Personal Development
& Well Being

FINDINGS, STUDIES & SURVEYS

75% of college students change their undergraduate major at least once, indicating that some students have difficulty declaring a major.

Study abroad experience significantly impacts college students' self-knowledge such as interests, skills and the capacity to relate self-knowledge to career options.

Students possess a more positive outlook on their career options and report having a clearer picture of career goals, talents, or vocational identity.

70% of survey respondents who completed an internship abroad reported that their study abroad experience ignited an interest in a career direction.
